

VizPick Fashion

Launching this year – replacing CAP, VizPick brings together RFID and VizPick Technology to locate and pick Fashion Merchandise within the the backroom to WACO's and Rolling Racks.

Prior to launch:

- Organization to Backroom is key to success
- Stores will receive
 - RFID container labels (for WACOs and RACKs), hooks, and plastic adapter
 - RFID confinement box – designed to fit the top stock cart

Resources:

- Toolkit and Launch Guide will be available prior to launch
- Dashboard and reporting will be after you launch
